Support Our Work

Supporters of Music Therapy in Cornwall

Cornwall Music Therapy Trust was established in 2006 to oversee and help fund development and research into Music Therapy in Cornwall and the Isles of Scilly.

Through partnership schemes, the aim is to support those suffering from mental or physical illness, those living with disabilities or with emotional or behavioural challenges, or those in need of rehabilitation as a result of such illness, by the provision of Music Therapy.

For nearly a decade the Trust has provided funding for a team of music therapists working at the Royal Cornwall Hospital, special and mainstream schools, children's centres and also with adults in various settings. It has also commissioned small scale research which has proved to be very valuable.

Considerable interest in the work of the Trust has been expressed throughout the Duchy and in response an opportunity for Supporters has been set up.

An annual minimum subscription of £15 will assist the Trust in its work and will entitle a Supporter to receive by e-mail*:

- Cornwall Music Therapy Trust publications;
- Advance notice of musical events held in aid of the Trust;
- Invitations to any professional conferences organised by the Trust;
- Invitations to social and fundraising events held to support the work of the Trust;
- If there is sufficient interest, it is hoped also to arrange some events specifically for Supporters from time to time.

Families of clients assisted by the Trust will be welcomed as Supporters without a subscription, although voluntary contributions would always be gratefully received. It is also hoped that families will try to raise awareness of the value of music therapy within their local communities and to encourage local fundraising.

Further information can be found at www.cornwallmusictherapy.org and applications for membership can be made to the administrator by e-mail or by completing the tear-off slip, and returning it to us.
